Good point. I just saw Sarah and we are still waiting to confirm if we can get time with the Administrator this week. If not, we will almost certainly have to reschedule the hearings.

I've been thinking about my schedule related to this. If we issue the draft permits Dec 5 through 9, I will need to be preparing the displays and different fact sheets for the public outreach sessions before the public hearings in January. So I don't think I should commit to sitting in on the interviews December & January.

But if the draft permit issuance gets postponed till January I would be able to sit in on the interviews.

Valois: I figured there could be a window of opportunity for you to do something like this between DB draft permit issuance and the end of the public comment period. However, I am fine with you passing on this opportunity as well.

If Valois' needs for a hydrogeologist is great for DB, perhaps she'd be better for this, but if not, I can sit these interviews.

Wendy/Valois: Karen is hiring a hydrogeologist into her Unit which will, in part, technically support our UIC work on AEs, etc. She liked my idea of having a technical senior staff person from UIC sit the interviews with us. I mentioned that either of you would be well suited for this task.

Can you let me know if you are interested and available? I am guessing the interviews would either occur in December and/or January.

Thanks,

Douglas
